

Russell Mait
President, Bramlee Consulting LLC
106 Windy Lane
Kilmarnock, VA 22482

Russell Mait has 40 years of experience in developing and directing environmental, health, safety, and quality programs for the chemical and aluminum industries. His recent projects have focused on modernizing US chemical management and environmental risk laws and regulations

A 1978 graduate of the University of Virginia, Mr. Mait earned a bachelor's degree in chemical engineering, and went on to earn his MBA from the University of Richmond.

Mr. Mait has held senior management positions with the Reynolds Metals Company and Hercules Incorporated. Prior to his retirement, Mr. Mait held the position of Director of Environmental, Health, Safety & Quality, for the Evonik Corporation. In this capacity, Mr. Mait was responsible for the environmental, health, safety, product stewardship and quality programs for the North and South American operations of the Nutrition & Care Segment of Evonik. Under Mr. Mait's leadership Evonik received the Virginia Governor's Environmental Excellence Award in 1996, 2006, and 2015; and the Chesapeake Bay Environmental Excellence Award in 2006.

After a 40-year career, Mr. Mait retired and formed the consulting firm, Bramlee Consulting in 2017 to continue his interest in chemical management advocacy.

He continues to serve on numerous nonprofit committees and boards, including, the American Chemistry Council, the Virginia Manufacturer's Association, and the Preservation Committee and Board of Directors of the Foundation for Historic Christ Church. Mr. Mait also served on the Special Commission to the Board of Supervisors, Chesterfield County, for "Shrink-Swell Soils and County Building Codes" and the City of Hopewell Local Emergency Planning Council.
