DuPont Sustainable Solutions (DDS) Named MSI Partner of the Year

-DuPont provided 127,230 Safety Training Courses to Virginia Manufacturers -

Lynchburg, VA – The Manufacturing Skills Institute (MSI) proudly awarded Dupont Sustainable Solutions (DSS) the 2019 MSI Partner of the Year Award at its 8th Annual Workforce Solutions Symposium held at Liberty University's School of Business in Lynchburg Virginia. DSS was given this honor for its outstanding support of safety excellence and safety training provided to manufacturers and craft brewers in the Commonwealth of Virginia as well as through MSI's national academic partner network.

A safe work environment is one of the highest commitments that an employer can make to their employees and their families in any industry. The Manufacturing Skills Institute (MSI) is committed to providing both training and support to manufacturers and contractors across the United States to insure they have safe practices and work environments by providing online safety training for the manufacturing industry. DDS collaborated with MSI to develop the first Industrial Safety Readiness Training (ISRT) certificate that conforms to OSHA 10 requirements. They have been working with MSI since 2012 resulting in over 127,130 safety courses delivered through 10 online curriculums. Manufacturers and contractors of manufacturers use these online courses as their primary safety training due to the systems flexibility and record keeping capability. Twenty-nine years after its founding, DSS's commitment to providing high-quality training resources to improve the safety, health and skills of the global workforce has never been stronger. Kally Ehrmentraut and Britt McReynolds were present to accept this award on behalf of DSS.

About the MSI

The industry-led Manufacturing Skills Institute (MSI) is the workforce development affiliate of the non-profit Virginia Manufacturers Association. It provides relevant education and skills training for careers in advanced manufacturing by offering world-class training programs delivered by MSI and MSI education partner institutions. Through the partnership between industry and education, employers set the skill standards for MSI program offerings anywhere offered to ensure learning is linked to employment and career advancement opportunities. Employer-specific customized training can be provided onsite or at any MSI education partner location. Working learners advance their manufacturing technology knowledge and skills via OJT classes, classroom-based and online training offered by MSI and education partner faculty grounded in real word experience. For more information about MSI, visit www.manufacturingskillsinstitute.org.
